Dear Sirs,

Re: Monorail

I have heard with interest of the suggestion to demolish the MONORAIL.

As you know it was originally envisioned by TNT and built by TNT as a "PEOPLE MOVER".

As an Architect at the time and practicing in Sydney, I believed that "monorail" as it was constructed back then would be a "TOY". The monorail simply did not work as a people mover, and became a poor quality tourist attraction only.

The present monorail really only services from Town Hall to the Entertainment Centre i.e. the southern end of the city.

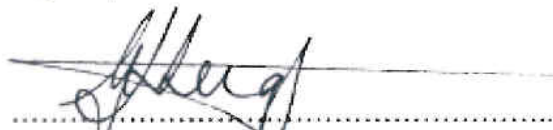

For the monorail to be a workable solution, it should be EXTENDED to CIRCULAR QUAY via a one way loop. This would then service the whole of the city.

A significant increase in carriages and particularly their frequency would be a necessity.

Please consider THIS proposal, in your Sydney 2030 Vision.

Thank you,

Regards,

Garth Leigh Architect (Retired)
